

Agriculture and Football

An American institution and one of America's major industries play great together!

Football are sometimes called pig skins because they used to be made from pig bladders!

Today's footballs are made of leather from cow hides... and one hide can make 20 footballs!

11,520

footballs are used during regular season games... that's 576 cow hides!

Grass or synthetic, ag products can be found on the field as well!

And don't forget food!

- chicken wings
- popcorn
- peanuts
- hotdogs/hamburgers
- chips and guacamole

Tickets are printed on paper (from trees and sometimes made from cornstarch) and can use soy ink from soybeans!

From the chicken, beef and pork to the (pop) corn, peanuts, wheat, tomato, mustard, avocados, corn (for the chips) and more, your favorite football snacks depend on ag!

Another Touchdown for Agriculture!
